The following extract from the report on the work of the Indian Section of the British Consulate at Baghdad for the year 1933 is published for general information.

XIII—PASSPORTS.

(*d*) Visas for Iraq—No visa for Iraq is required on pilgrim passes. Holders of regular passports must, however, obtain the Iraqi visa, ordinary or transit, valid for 12 months and 15 days respectively.

(*e*) Visas for Persia—The Persian Consulate at Baghdad continued to refuse to grant visas for Persia on Pilgrim passes on the ground that such visas should have been obtained in India. The practice of issuing restricted British passports to British Indian pilgrims intending to travel back to India *via* Persia was therefore continued. Restricted British passports issued during 1933 to enable the pilgrims to travel through Persia totalled 349. In general, these pilgrims on leaving India had no intention of proceeding to Persia. Holders of British Indian passports who had neglected to obtain a visa for Persia in India continued to have difficulty in obtaining a visa at Baghdad. In such cases a visa was granted only at the written request of His Majesty's Consul. It should be impressed on all pilgrims intending to visit Persia from Iraq, that they will save themselves much trouble and expense by obtaining the Persian visa in India on their passports or pilgrim passes.

Notice to Intending Passengers from India to Foreign Ports.

To prevent the spread of small-pox from infected countries, it was decided at the Regional Conference of the League of Nations held at Cape Town in 1932, that intending passengers from such countries should not be permitted to embark for foreign ports unless they are in possession of valid vaccination certificates, and that facilities should be provided for the issue of these certificates.

It is, therefore, necessary that passengers from India to foreign ports, shall, either possess a certificate of vaccination issued by a competent medical officer showing that vaccination has been performed not less than twelve days and not more than three years before the date of embarkation, or bear scars or marks of a previous attack of small-pox.

Certificates of vaccination issued for this purpose will be valid only if they have been granted by Port Health Officers, District or Municipal Health Officers, or Civil Surgeons, or if they have been granted by other registered medical practitioners, if the certificates are countersighed by one or other of the officers mentioned above. This countersignature shall be obtained free of charge to the passenger by the Registered Medical Practitioner granting the certificate.

All passengers from India to foreign ports are advised to comply with these rules, if they are to avoid inconvenience and possibly detention at the port of debarkation.

Notice.

A competitive examination will be held in Delhi on the 21st October, 1935, and subsequent days, for entry to the Indian Military Academy, Dehra Dun, in the term beginning on the 1st February, 1936, and also for entry to the Royal Indian Navy.

2. The examination will be a combined examination for the purpose of filling vacancies in the Indian Military Academy and the Royal Indian Navy. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both the Indian Military Academy and the Royal Indian Navy, he will ordinarily be assigned to the one for which he expressed a preference in his application; but the Government of India reserve power to assign him to either.

3. At this examination, 15 vacancies will be offered for entry to the Indian Military Academy. The Governor-General-in-Council, however, reserves to himself the right to fill the last three vacancies by nomination from among those who have qualified but failed to obtain sufficient marks to secure one of the first twelve vacancies. One vacancy will be offered for admission to the Engineer Branch and one vacancy to the Executive Branch of the Royal Indian Navy.

4. The examination will be the same for all arms of the Indian Army, *i.e.*, Cavalry, Artillery, Signals, Engineers and Infantry. Those cadets who wish to elect for the Artillery, Engineers and Signals will be permitted to do so during their course at the Academy, at the discretion of the Commandant, provided they obtained 40 per cent of the maximum marks in each of the subjects, Lower Mathematics and Physics, at the examination.

5. Candidates for the Indian Military Academy examination must be over 18 and under 20 years of age on the 1st November, 1935, unmarried and domiciled in India. Candidates for the Royal Indian Navy examination must be over 17 and under 19 years of age on the 1st May, 1935, unmarried and domiciled in India. A candidate who desires to appear at the examination is required to submit his application in the prescribed form with the necessary documents on or before the 1st July, 1935, in accordance with the instructions given on that form. Copies of the Rules and the Application Form, etc., may be obtained from the Secretary to the Public Service Commission, Kennedy House Annexe, Simla.

The fact that an application form has been supplied, on whatever date, will not be accepted as an excuse for the late submission of an application. Candidates who delay their requests for forms until a late date will do so at their own risk.

6. Applications should be sent by registered post. If a candidate fails to register his application, he does so at his own risk. If a candidate desires an acknowledgment, he should also send his application "registered, acknowledgment due."

NOTE.—If any candidate has appeared at the March—April 1935 Indian Military Academy examination and, in the event of his not being successful thereat, wishes to appear at the October Indian Military Academy and Royal Indian Navy examinations, he must submit his application by the prescribed date without waiting for the results of the former examination. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both the Indian Military Academy and the Royal Indian Navy, he will ordinarily be assigned to the one for which he expressed a preference in his application; but the Government of India reserve power to assign him to either.

3. At this examination, 15 vacancies will be offered for entry to the Indian Military Academy. The Governor-General-in-Council, however, reserves to himself the right to fill the last three vacancies by nomination from among those who have qualified but failed to obtain sufficient marks to secure one of the first twelve vacancies. One vacancy will be offered for admission to the Engineer Branch and one vacancy to the Executive Branch of the Royal Indian Navy.

4. The examination will be the same for all arms of the Indian Army, *i.e.*, Cavalry, Artillery, Signals, Engineers and Infantry. Those cadets who wish to elect for the Artillery, Engineers and Signals will be permitted to do so during their course at the Academy, at the discretion of the Commandant, provided they obtained 40 per cent of the maximum marks in each of the subjects, Lower Mathematics and Physics, at the examination.

5. Candidates for the Indian Military Academy examination must be over 18 and under 20 years of age on the 1st November, 1935, unmarried and domiciled in India. Candidates for the Royal Indian Navy examination must be over 17 and under 19 years of age on the 1st May, 1935, unmarried and domiciled in India. A candidate who desires to appear at the examination is required to submit his application in the prescribed form with the necessary documents on or before the 1st July, 1935, in accordance with the instructions given on that form. Copies of the Rules and the Application Form, etc., may be obtained from the Secretary to the Public Service Commission, Kennedy House Annexe, Simla.

The fact that an application form has been supplied, on whatever date, will not be accepted as an excuse for the late submission of an application. Candidates who delay their requests for forms until a late date will do so at their own risk.

6. Applications should be sent by registered post. If a candidate fails to register his application, he does so at his own risk. If a candidate desires an acknowledgment, he should also send his application "registered, acknowledgment due."

NOTE.—If any candidate has appeared at the March—April 1935 Indian Military Academy examination and, in the event of his not being successful thereat, wishes to appear at the October Indian Military Academy and Royal Indian Navy examinations, he must submit his application by the prescribed date without waiting for the results of the former examination. Should he have been successful, his candidature for the October examination(s) will be cancelled.

By Order,
K. V. ANANTARAMAN,
Offg. *Chief Secretary to Government.*

Notice.

A competitive examination will be held in Delhi on the 21st October, 1935, and subsequent days, for entry to the Indian Military Academy, Dehra Dun, in the term beginning on the 1st February, 1936, and also for entry to the Royal Indian Navy.

2. The examination will be a combined examination for the purpose of filling vacancies in the Indian Military Academy and the Royal Indian Navy. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both the Indian Military Academy and the Royal Indian Navy, he will ordinarily be assigned to the one for which he expressed a preference in his application; but the Government of India reserve power to assign him to either.

3. At this examination, 15 vacancies will be offered for entry to the Indian Military Academy. The Governor-General-in-Council, however, reserves to himself the right to fill the last three vacancies by nomination from among those who have qualified but failed to obtain sufficient marks to secure one of the first twelve vacancies. One vacancy will be offered for admission to the Engineer Branch and one vacancy to the Executive Branch of the Royal Indian Navy.

4. The examination will be the same for all arms of the Indian Army, *i.e.*, Cavalry, Artillery, Signals, Engineers and Infantry. Those cadets who wish to elect for the Artillery, Engineers and Signals will be permitted to do so during their course at the Academy, at the discretion of the Commandant, provided they obtained 40 per cent of the maximum marks in each of the subjects, Lower Mathematics and Physics, at the examination.

5. Candidates for the Indian Military Academy examination must be over 18 and under 20 years of age on the 1st November, 1935, unmarried and domiciled in India. Candidates for the Royal Indian Navy examination must be over 17 and under 19 years of age on the 1st May, 1935, unmarried and domiciled in India. A candidate who desires to appear at the examination is required to submit his application in the prescribed form with the necessary documents on or before the 1st July, 1935, in accordance with the instructions given on that form. Copies of the Rules and the Application Form, etc., may be obtained from the Secretary to the Public Service Commission, Kennedy House Annexe, Simla.

The fact that an application form has been supplied, on whatever date, will not be accepted as an excuse for the late submission of an application. Candidates who delay their requests for forms until a late date will do so at their own risk.

6. Applications should be sent by registered post. If a candidate fails to register his application, he does so at his own risk. If a candidate desires an acknowledgment, he should also send his application "registered, acknowledgment due."

NOTE.—If any candidate has appeared at the March—April 1935 Indian Military Academy examination and, in the event of his not being successful thereat, wishes to appear at the October Indian Military Academy and Royal Indian Navy examinations, he must submit his application by the prescribed date without waiting for the results of the former examination. Should he have been successful, his candidature for the October examination(s) will be cancelled.

The following resolution of the Government of India is published for general information :—

By Order,
M. VENKATANARANAPPA,
Secretary to Government,
Development Department.

No. 458—*T* (14).

Government of India, Department of Commerce, Simla,

the 22nd June 1935.

RESOLUTION—TARIFFS.

In response to the representations of certain glass manufacturers in India in their resolution in the Department of Commerce No. 438—T (2), dated the 20th October 1931, referred to the Tariff Board for examination, the claim of the indigenous Glass Industry for protection. The terms of reference directed that the Tariff Board should be guided by the principles laid down in the Resolution adopted by the Legislative Assembly on February 16, 1923, and that it should consider :—

(1) Whether the conditions laid down in the report of the Indian Fiscal Commission were satisfied in the case of the industry and to what extent, if any, and in respect of what articles or class or description of articles protection should be afforded ;

(2) In what form and for what period protection, if any, should be given ; and

(3) How its recommendations, if any, would affect other industries.

2. The Report of the Tariff Board, which is published to-day for general information, shows that the Glass Industry has a wide geographical distribution in India and that there are as marked differences in the nature of its products and in the methods of their manufacture as in its location. But whatever differences may exist in these respects, the Report makes it clear that all branches of the industry have a common need for the same raw materials. In Chapter II of its Report the Board, in accordance with its terms of reference, has investigated the natural advantages possessed by the industry with a view to determining whether it satisfies the first condition prescribed by the Indian Fiscal Commission and in particular it has examined the resources of the industry in respect of raw materials. Of these by far the two most important are silica and soda ash, and while the Board is of opinion that ample supplies of the former in the form of sand of sufficiently good quality are available, it has found that satisfactory sources of soda are not yet in existence in India and that the industry is dependent on imported supplies. The Board does not, however, consider that this fact in itself invalidates the claim for protection and it finds that the first of the conditions prescribed by the Fiscal Commission is satisfied.

3. The Government of India regret that they are unable to accept this finding. They are of the opinion that the absence of indigenous supplies of a raw material which in the United Provinces, where the Glass Industry is to a great extent concentrated, represents 70-75 per cent of the total cost of materials and which even at ports of entry represents 30-45 per cent of that cost, constitutes a disadvantage to the industry which cannot possibly be balanced by any advantages which it possesses in other respects. The Government of India are unable to distinguish the present case from that of the manufacture of electric wires and cables in which the Tariff Board itself held that the absence of indigenous supplies of copper was a fatal obstacle to the grant of protection.

4. At the time when its report was written, however, the Tariff Board expressed the opinion that supplies of soda ash would in the immediate future be available in this country. The Government of India were, therefore, reluctant to reject the claim of the industry for protection until it had been ascertained whether or not the anticipations of the Board were likely to be fulfilled. Enquiry has, however, shown that the Board was unduly optimistic and that no adequate source of Indian soda ash has yet been developed. It is possible, however, that a fresh source of supply may be available within the next few years at Khewra and the Government of India do not propose to take a final decision on the claim for protection until the possibilities of this new source have been more fully explored.

5. There are a number of other matters in respect of which the Government of India are unable to accept the Tariff Board's conclusions, but as they do not propose to take a final decision at present, it is unnecessary to discuss these now. In the meantime, until such final decision can be taken, the Government of India have decided to afford the glass manufacturing industry a certain measure of relief by way of rebate of the duty on imported soda ash. The proposed procedure for granting this rebate is as follows :—

When a Collector of Customs is satisfied that any consignment or part of a consignment of soda ash imported at his port has been supplied, after the date of this Resolution, to a glass manufacturer for use, within a reasonable period, in the manufacture of glass, he will on the request of the importer pay to the glass manufacturer a refund of the entire duty in the case of soda ash of British or Colonial origin and of the excess over 10 per cent *ad valorem* in the case of other soda ash. The refund will be paid by cheque to the manufacturer or his authorised agent.

This concession will continue for three years at theend of which period, if it appears that a *prima facie* case for protection then exists, a further reference will be made to the Tariff Board.

Order.—Ordered that a copy of the above Resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director-General of Commercial Intelligence and Statistics, the Central Board of Revenue, the Indian Trade Commissioners, London, Hamburg and Milan, the Secretary, Tariff Board, the High Commissioner for India, London, His Majesty's Trade Commissioner in India, the Canadian Trade Commissioner in India, all the Chambers of Commerce and Associations, the French Trade Commissioner in India, Burma and Ceylon, the Secretary, Imperial Council of Agricultural Research and the Chief Controller of Stores.

Ordered also, that it be published in the Gazette of India.

No. L. 759—*L. B.* 79-34-7, *dated* 26—27*th July* 1935.

In exercise of the powers conferred by Section 100 (2) (d) of the Mysore District Boards' Regulation, 1926 and all other powers in this behalf, Government are pleased to cancel the proviso (4) introduced by Notifications Nos. L. 5097—L. B. 79-34-2 dated 23rd—31st January 1935 and L. 7097—L. B. 79-34-4, dated 10th April 1935 and to direct that the following be inserted in its place as proviso (4) to Rule 34 of the Rules issued with Notification No. L. 5470—L. No. 45-G.—(I. E. R.).—The international scheme for the restriction of the supply of tea to world markets, which came into operation in 1933, is based on the agreement of three important tea-producing countries, namely, India, Ceylon and the Netherlands East Indies to limit by Governmental action the exports of tea from their respective territories. In announcing their readiness to support the international scheme, the Government of India made, however, one important reservation. In their opinion, exports of tea across India's land frontiers were unlikely to prove a menace to the success of the scheme, and they therefore undertook to control exports of tea from India by sea only.

At the same time, they agreed to watch the situation carefully and to take action should it appear that the land frontiers were being used to defeat the purposes of the international scheme.

2 Early in 1934, representations were received on behalf of the tea interests in Ceylon and the Netherlands East Indies that India's land frontiers were in fact being used to evade the restriction scheme, and that the tea market in Iran was being flooded by the abnormal supplies exported across the frontier between India and Iran. The following statistics will show that these representations were well founded.

Total Transfrontier Exports of Tea.

Destination	(In million pounds)			
	1931-32	1932-33	1933-34	1934-35
Afghanistan	3·2	2·7	4·2	2·5
Tibet, Nepal, etc.	·8	1·5	1·1	·6
Persia	·2	1·3	5·6	12·4

The shares of Indian and foreign tea in the total exports given above are as follows:—

Transfrontier Exports of Indian Tea.

Destination	(In million pounds)			
	1931-32	1932-33	1933-34	1934-35
Afghanistan	·9	·2	·7	1·1
Tibet, Nepal, etc.	·4	1·4	1·4	·5
Persia	1·9	1·3	5·5	12·4

Transfrontier Exports of Foreign Tea.

Destination	(In million pounds)			
	1931-32	1932-33	1933-34	1934-35
Afghanistan	2·3	2·5	3·1	1·4
Tibet, Nepal, etc	·4	·1	·05	·07
Persia	·05	·01	·02	·01

While exports to Afghanistan, Tibet and Nepal have shown no abnormal variations, those to Iran have increased to a very significant extent.

3. In these circumstances, the Government of India, while desiring in no way to interfere with the normal trade between India and Iran, have felt it incumbent upon them to take steps to prevent the flooding of the Iranian tea market by uncontrolled Indian exports at the expense of the other partners to the international scheme. For this purpose, they have decided to apply to exports across the Iranian frontier the same procedure as is in force in respect of exports by sea and have accordingly issued Government of India Finance Department (Central Revenues) Notification No. 44—Customs, dated the 31st August 1935, which restricts exports of tea overland to Iran to consignments covered by export licenses issued by the Indian Tea Licensing Committee.

RESOLUTION.

TARIFFS.

Simla, the 10*th September* 1935.

No. 341-T. (12)/35.—As a result of the visit of the British Textile Mission to India in the autumn of 1933, an Agreement was concluded between the Millowners' Association, Bombay, and the Mission which was expressed in the following terms :—

2. "The parties wish to record their conviction that great benefit has been derived by all concerned from the full and frank exchange of views, the personal contacts which have been established and the greater understanding which both sides have secured of each other's position.

The parties are agreed that it would be in the best interests of the industries they represent to maintain and develop in the future the contacts which have been established and it is hoped that it will become the practice for views to be exchanged whenever circumstances render it desirable.

The following headings of agreement have been adopted on the assumption that the cotton duty is not increased above the present level of half an anna per pound.

(1) It was agreed that the Indian Cotton Textile Industry is entitled, for its progressive development, to a reasonable measure of protection against the imports of United Kingdom yarns and piecegoods. It was also agreed that under present conditions, owing to lower costs and other factors operating in foreign countries, the Industry required a higher level of protection against them than against the United Kingdom.

(2) As regards cotton piecegoods, it was agreed that if and when the revenue position of the Country made it possible for the Government of India to remove the general surcharge on all imports imposed in October, 1931, the Indian side would not make fresh proposals with regard to the duties applicable to the United Kingdom.

(3) In the matter of cotton yarns, the present duties are 6¼ per cent *ad valorem* or 1 7/8 annas per pound. The Indian side has agreed that so far as imports from the United Kingdom are concerned, the duty may be 5 per cent *ad valorem* with a minimum specific duty of 1¼ annas per pound.

(4) So far as artificial silk piecegoods are concerned, the Indian side agreed that in the case of the United Kingdom, the duties may be as follows :—

30 per cent *ad valorem* or 2½ annas per square yard for hundred per cent artificial silk fabrics ; and

30 per cent, or 2 annas per square yard for mixture fabrics of cotton and artificial silk.

The present duties on these classes of goods are :—

50 per cent *ad valorem* or 4 annas per square yard on hundred per cent artificial silk fabrics ; and

35 per cent, or 2 annas 3 pies per square yard for mixture fabrics of cotton and artificial silk.

(5) In so far as the Empire and other overseas markets for piecegoods and yarns are concerned, it is agreed that any advantages which might be arranged for British goods should be extended to Indian goods, and that India, in markets in which she has no independent quota, should participate in any quota which might be allocated to the United Kingdom. In respect of overseas markets in which Indian mills lack established connections, it is agreed that the Manchester Chamber of Commerce should use its good offices to bring about contacts between Indian manufacturers and British houses which are already established in those markets.

(6) In regard to raw cotton, the Indian side strongly emphasised the urgent necessity of further efforts being made in the United Kingdom to popularise and promote the use of the Indian raw material. They welcomed the undertaking that the British Textile Mission would be prepared to recommend effective action being taken and keep the Indian side regularly in touch with developments. It was further agreed that other avenues of co-operation in this field should be explored in the interests of the Indian cotton-grower.

This understanding is limited in its duration to the period ending on 31st December 1935."

3. At the time when this Agreement was reached, the Government of India had under their consideration the question of the import duties necessary to afford adequate protection to the Indian cotton textile industry, and in their view the scale of duties which had been accepted by an important and representative section of the Indian textile industry constituted a fair basis for the protective scheme in so far as it had application to imports from the United Kingdom. The duties set out in the Agreement were, therefore, with one slight modification in respect of cotton yarn of counts over 50's, given statutory force by the Indian Tariff (Textile Protection) Amendment Act which became law on the 1st May 1934.

4. In the course of the debate on the Bill the then Commerce Member, Sir Joseph Bhore, in moving that the Bill be referred to a Select Committee, stated on behalf of the Government that, though it was intended to afford the textile industry protection for a period of five years, the tariff rates on British goods would remain in force for two years in accordance with the terms of the Agreement between the Lancashire Delegation and the Millowners' Association, Bombay. On the expiry of the two years covered by the Agreement, the duties on British goods for the remaining period of protection would have to be decided on a review of the conditions then existing and in the light of such experience as may have been gained. The period of the Agreement will expire on the 31st December 1935, and it will be necessary to introduce, in the course of the next Budget Session, legislation to give effect to any changes in the duties which may be found necessary. The Government of India have, therefore, decided that the enquiry foreshadowed in Sir Joseph Bhore's speech should take place at an early date and that it should be entrusted to a Special Tariff Board constituted as follows :—

President.

Sir Alexander Murray, Kt., C.B.E.

Members.

Mr. Fazal Ibrahim Rahimtoola.
Dewan Bahadur A. Ramaswamy Mudaliar.

5. The following are the terms of reference to the Board :—

To recommend on a review of present conditions and in the light of the experience of the effectiveness of the existing duties, the level of the duties necessary to afford adequate protection to the Indian cotton textile industry against imports from the United Kingdom of (*a*) cotton piecegoods, (*b*) cotton yarn, (*c*) fabrics of artificial silk and (*d*) mixture fabrics of cotton and artificial silk. By adequate protection is meant duties which will equate the prices of imported goods to the fair selling prices for similar goods produced in India.

6. In the course of this enquiry, the Board will give a full opportunity to the cotton textile industry, whether in India or the United Kingdom, to present its case and, if necessary, to answer the cases presented by other interested parties.

7. The Board will not be required to make any recommendations in respect of revenue duties.

8. Firms or persons, who desire that their views should be considered by the Special Tariff Board, should address their representations to the Secretary to the Board.

T. A. Strewart,
Secy. to the Govt. of India.

COMMITTEE ON CO-OPERATION IN MYSORE.

QUESTIONNAIRE.

MEMORANDUM.

This Committee was appointed by the Government of Mysore on 29th October 1935, for the purpose of enquiring into the present state of the Co-operative Movement in Mysore in its various forms, with reference not only to co-operative credit but also to co-operative production, distribution and sale, as well as to house building, insurance and other relatively less developed fields of co-operative activity. Among matters that will engage the attention of the Committee, the investigation of the financial system generally, including the connection between the various parts of the co-operative organization and the working and future development of Land Mortgage Banks, will occupy an important place. The instructions to the Committee include also an enquiry into the most appropriate methods of promoting efficiency and convenience in such matters as propaganda, supervision, control and management of institutions and the disposal of co-operative disputes.

In order to facilitate the enquiry as well as to give a full opportunity to all persons interested to place before the Committee their considered views and suggestions, a detailed set of questions arranged under various heads, has been drawn up, and the same is published for general information. There are several questions of general interest dealing with matters such as may be within the knowledge or experience of a large number of persons who are not immediately or directly connected with the day-to-day working of particular types of societies, and at the same time some questions are of a technical nature which only those actually engaged in the [illegible]tration of societies can be in a position to deal with. It is not expected, therefore, that all persons will be inclined to take up all the questions, nor on the other hand is it the intention to limit the expression of opinions and suggestions to only those points which are covered by the questionnaire. The Committee will welcome all expressions of views on any matter within the scope of the enquiry whether included in the questionnaire or not.

It is particularly requested that answers may be furnished as soon as possible, and not later than the 1st January 1936, to the address of the Secretary to the Committee on Co-operation in Mysore, Public Offices, Bangalore.

Copies of the questionnaire may be had on application to that officer.

Bangalore,
Dated 21st Nov. 1935.

5. Is it necessary or desirable to have supervising unions as in Madras and Travancore for the more systematic supervision of primary societies? If so, what functions may be entrusted to them? Should supervision be supplemented or strengthened by any further agency?

6. What is your opinion regarding the provincialization of the supervising staff, and the formation and utilization of a common supervision fund?

The following Memorandum and Questionnaire relating to the Committee on Co-operation in Mysore are published for general information.

By Order,

Secretary to Government,

COMMITTEE ON CO-OPERATION IN MYSORE.

QUESTIONNAIRE.

MEMORANDUM.

This Committee was appointed by the Government of Mysore on 29th October 1935, for the purpose of enquiring into the present state of the Co-operative Movement in Mysore in its various forms, with reference not only to co-operative credit but also to co-operative production, distribution and sale, as well as to house building, insurance and other relatively less developed fields of co-operative activity. Among matters that will engage the attention of the Committee, the investigation of the financial system generally, including the connection between the various parts of the co-operative organization and the working and future development of Land Mortgage Banks, will occupy an important place. The instructions to the Committee include also an enquiry into the most appropriate methods of promoting efficiency and convenience in such matters as propaganda, supervision, control and management of institutions and the disposal of co-operative disputes.

In order to facilitate the enquiry as well as to give a full opportunity to all persons interested to place before the Committee their considered views and suggestions, a detailed set of questions arranged under various heads, has been drawn up, and the same is published for general information. There are several questions of general interest dealing with matters such as may be within the knowledge or experience of a large number of persons who are not immediately or directly connected with the day-to-day working of particular types of societies, and at the same time some questions are of a technical nature which only those actually engaged in the administration of societies can be in a position to deal with. It is not expected, therefore, that all persons will be inclined to take up all the questions, nor on the other hand is it the intention to limit the expression of opinions and suggestions to only those points which are covered by the questionnaire. The Committee will welcome all expressions of views on any matter within the scope of the enquiry whether included in the questionnaire or not.

It is particularly requested that answers may be furnished as soon as possible, and not later than the 1st January 1936, to the address of the Secretary to the Committee on Co-operation in Mysore, Public Offices, Bangalore.

Copies of the questionnaire may be had on application to that officer.

BANGALORE, } K. S. CHANDRASEKHARA AIYAR,

QUESTIONNAIRE.

I. General.

1. Is the co-operative movement in Mysore advancing on sound and efficient lines? What, in your opinion, are its principal defects and what are the appropriate remedies?

2. To what extent has the movement resulted in reducing the general level of indebtedness, the prevalent rate of interest and civil litigation? In what other ways has it materially benefited the members of societies?

3. Has the movement improved the moral and educational standards of the members of societies and promoted habits of thrift and economy?

4. Is there any complaint that the economic condition of the members has deteriorated as a result of facile credit? If so, is it based on facts?

5. What steps do you think should be taken to encourage the growth of the co-operative movement by

(i) Government;

(ii) Non-official agencies.

6. Do you think that the concessions and privileges now granted by Government to the co-operative movement sufficient? If not, what further concessions are needed?

7. What steps or precautions are necessary to prevent misappropriation of funds in societies and banks? To what extent are such wrongful practices prevalent among the societies?

8. How far is it desirable or possible for co-operative societies to undertake—

(i) the conciliation of debts due by members to outside creditors, and

(ii) the discharge of debts conciliated in the above manner.

What legal or other facilities are required to enable them to do so?

9. Are there any purely communal societies in the State? How are they working? Are you in favour of communal societies being organized for the general advancement of particular communities or for specific purposes?

10. How far may the funds of societies be expended for charitable or philanthropic purposes?

11. To what extent are women taking part in the development of co-operation in the State, and is there scope for their playing a more important part in it than now?

12. Is there a need for separate societies for women, and what should the functions of such societies be in your opinion?

Notification No. D. 3599—C. S. 8-35-28, dated 2nd December 1935.

The following Memorandum and Questionnaire relating to the Committee on Co-operation in Mysore are published for general information.

By Order,
M. VENKATESA IYENGAR,
Secretary to Government,
General Department.

COMMITTEE ON CO-OPERATION IN MYSORE.

QUESTIONNAIRE.

MEMORANDUM.

This Committee was appointed by the Government of Mysore on 29th October 1935, for the purpose of enquiring into the present state of the Co-operative Movement in Mysore in its various forms, with reference not only to co-operative credit but also to co-operative production, distribution and sale, as well as to house building, insurance and other relatively less developed fields of co-operative activity. Among matters that will engage the attention of the Committee, the investigation of the financial system generally, including the connection between the various parts of the co-operative organization and the working and future development of Land Mortgage Banks, will occupy an important place. The instructions to the Committee include also an enquiry into the most appropriate methods of promoting efficiency and convenience in such matters as propaganda, supervision, control and management of institutions and the disposal of co-operative disputes.

In order to facilitate the enquiry as well as to give a full opportunity to all persons interested to place before the Committee their considered views and suggestions, a detailed set of questions arranged under various heads, has been drawn up, and the same is published for general information. There are several questions of general interest dealing with matters such as may be within the knowledge or experience of a large number of persons who are not immediately or directly connected with the day-to-day working of particular types of societies, and at the same time some questions are of a technical nature which only those actually engaged in the administration of societies can be in a position to deal with. It is not expected, therefore, that all persons will be inclined to take up all the questions, nor on the other hand is it the intention to limit the expression of opinions and suggestions to only those points which are covered by the questionnaire. The Committee will welcome all expressions of views on any matter within the scope of the enquiry whether included in the questionnaire or not.

It is particularly requested that answers may be furnished as soon as possible, and not later than the 1st January 1936, to the address of the Secretary to the Committee on Co-operation in Mysore, Public Offices, Bangalore.

Copies of the questionnaire may be had on application to that officer.

BANGALORE,
Dated 21st Nov. 1935.

4. The proportion of long-term to short-term loans in Mysore is understood to be about one-half. Do you think this to be excessive or to require rectification? If so, what measures would you suggest?

5. Do delays in the disposal of loan applications occur frequently? If so, can they be avoided? Do they deter members from applying for short or long term loans?

6. Is there any reason to think that an undue proportion of loans are monopolized by a comparatively small number of borrowers (say in sums exceeding Rs. 5,000)? What restrictions, if any, would you impose on them?

7. Are the existing rates of interest, ordinary or penal, on loans to members or societies or on deposits made by them, excessive in your opinion, and do they require to be reduced? If so, to what extent?

8. Is there any great disparity between the borrowing and the lending rates?

9. To what extent is the alarming increase of overdues due to economic depression, and to what extent to other causes?

10. Is the increase of overdues such as to affect the proper working of the societies? How far is there a need, in view of the present economic conditions, for the grant of extensions of time or for easing the repayments and reducing or remitting ordinary or penal interest due by members; or should the societies take effective steps against the defaulters as under normal conditions?

11. Do you advise the appointment of a special staff for the recovery of overdues in the Districts where the arrears are very heavy?

12. Has the principle of unlimited liability been applied so that the whole liability on liquidation is unfairly laid on a small minority of the members?

13. Is it desirable for a society ordinarily to take a loan in another society or bank to repay deposits?

14. Have you any suggestions for simplifying the accounts of societies?

VIII. Organization.

1. Are the arrangements obtaining in the State for the organization and formation of societies satisfactory? Do you think they could be improved?

2. Is there necessity at present to organize new societies, and who should organize them? What qualifications should the organizers possess, and what instructions should they give to the Committees and the members of new societies?

3. The Registrar's report shows that the management of some societies is slack and indifferent and of some others wilfully injurious. Have you any suggestions for the re-organization of such societies?

4. Do you consider that the registration of more than one society of the same type in the same area is objectionable? What are the circumstances under which more than one society may be registered? Is it necessary to attach any conditions before they are so registered?

5. When there are more societies of the same type working in an area, how is co-ordination between them to be secured?

IX. Instruction and Propaganda.

1. Are there enough facilities in the State for providing adequate training in co-operative principles and practices for the staff employed by Government and the societies?

2. Is it desirable to have a Central Co-operative School or Institute for providing courses of instruction and training for officials, office bearers and others engaged in co-operative work? On what lines should it be organized and how is the cost to be met?

3. Is the staff now engaged by the Department sufficient to cope with the increased volume of work?

4. Have you any suggestions to offer for making the existing arrangements for propaganda more effective and adequate?

5. Is it desirable to create a special body for dealing with propaganda work?

6. Is the present scale of pay sufficient to attract men of the right type with the requisite qualifications to take up co-operative work after proper training?

X. Audit.

1. Audit is a statutory function of the Registrar. In what cases and to what extent should societies contribute towards the cost of audit?

2. Do you consider that the present arrangements for audit of societies are adequate and satisfactory?

3. How far is it desirable to maintain the present system of official audit? Is it advisable to replace it by a system of non-official audit under a centralized provincial agency like the Provincial Co-operative Institute?

4. Is there any complaint that audit is not fully independent and impartial, and is there a need to give wider legal powers to auditors to enable them to do their work properly?

5. Do the present arrangements for audit allow members, depositors and others having financial interest in societies, to obtain all the information required by them regarding the position of the societies?

6. Does the form in which the balance sheet is now prepared reflect the financial position of societies correctly?

7. Are the present rates of audit fees charged reasonable or excessive? Do they require any modification?

XI. Supervision.

1. Is the supervision of the work of co-operative societies at present adequate and satisfactory? Is there any need for increasing the measure of official control over their working?

2. Can the supervision of societies be handed over partly or wholly to non-official agencies either immediately or gradually?

3. The Registrar's report shows that the position of federal co-operative unions is anything but satisfactory. Is there any way in which they could be revived and made more active and useful?

4. Should central financing institutions inspect and supervise societies financed by them, or is there any other agency to which this work may be entrusted?

5. Is it necessary or desirable to have supervising unions as in Madras and Travancore for the more systematic supervision of primary societies? If so, what functions may be entrusted to them? Should supervision be supplemented or strengthened by any further agency?

6. What is your opinion regarding the provincialization of the supervising staff, and the formation and utilization of a common supervision fund?

XII. Litigation.

1. Do you think that the present arrangements for the settlement of co-operative disputes should continue? If, in your opinion, the time has arrived for a change, what alterations would you suggest?

2. Do you consider that the disposal of co-operative disputes can or may be entrusted to any other agency than the Co-operative Department? If so, what agency would you suggest?

3. What, in your opinion, are the reasons for the increase in the number of institutions of co-operative disputes every year? Is it necessary or desirable to check it, and if so, how should it be done?

4. Is it desirable to make the law of limitation as it stands applicable to co-operative disputes, or would you suggest any alterations?

5. Can the departmental officers compel the filing of disputes against wilful and persistent defaulters when the management of a society fails or refuses to take such action?

6. Are co-operative disputes disposed of with reasonable despatch? If not, what steps are necessary to ensure quicker disposals?

7. Do you favour the establishment of arbitration and executive unions as in the Punjab? If so, what contribution should the societies make to meet the expenditure?

8. What is your opinion as to the efficiency of the work of the arbitrators?

9. Are suitable honorary arbitrators available in sufficient number in the State?

10. Would you suggest any scale of remuneration for arbitrators, or is it possible to get the work done voluntarily?

11. What steps should be taken to minimise delays in the execution of co-operative decrees or awards?

12. Is execution by the Revenue Department prompt and efficient?

13. Can you suggest measures to minimise the disadvantages incidental to the purchase of defaulters' lands by the creditor Banks in execution?

XIII. Liquidation.

2. Is it feasible to entrust liquidation work to non-official agencies? If so, what remuneration would you recommend to the liquidators?

3. Are there any desirable alternatives to the compulsory liquidation of societies?

XIV. Miscellaneous.

1. Are there any provisions in the present Co-operative Regulation or the Rules thereunder which are defective and inadequate for the working of Societies? If so, can you suggest any amendments?

2. (i) Do you consider that the relations which exist between the Co-operative Department and other departments of Government, such as Revenue, Agriculture, Industries, Veterinary, etc., are satisfactory? If not, can you suggest any means whereby better co-operation with these departments can be ensured?

(ii) In particular do you think that a Board consisting of the Heads of the Departments of Co-operation, Agriculture and Industries and Commerce would serve a good purpose?

(iii) Are you in favour of constituting [illegible] Provincial Advisory Council, composed of t[illegible] representatives of the Departments of Industries and Commerce and Agriculture and prominent workers in the co-operative field, to assist the Registrar?

3. Do you think that the interests of co-operation will be better served by special or additional representation in the Representative Assembly and Legislative Council? If so, what is the extent of representation and the method of election that you would recommend?

4. To what extent is there scope for the utilization of the services of Government officials on Committees and in other branches of co-operation work?

5. What is your opinion as to the work that is now being done by honorary workers? In what directions may the services of non-officials be increasingly utilised for the development of the movement?

13. *Deposit for the purpose of defraying the cost of the return voyage from Jedda.*—If a pilgrim travelling by the lowest class available on a ship is not in possession of a return ticket, he will have to deposit with the Executive Officer of the Port Haj Committee of the port at which he proposes to embark for the purpose of defraying the cost of the return voyage from Jedda, the sum mentioned below:—

Port at which the pilgrim proposes to embark	In the case of a pilgrim of the age of ten years and above			In the case of a pilgrim under ten years of age		
	Rs.	a.	p.	Rs.	a.	p.
Bombay	61	2	0	56	2	0
Karachi	58	2	0	54	10	0
Calcutta	85	2	0	78	2	0

14. *Estimates of cost of the* 1936 *Hajj.*—It has been estimated for the current Hajj season that at the current (September 1935) rate of exchange (One pound gold=110 Piastres Miri-Rupees 22-6-0) the minimum cost of pilgrimage, including a visit to Medina to a pilgrim who proceeds to Jedda as a deck passenger and travels on a camel in the Hejaz would be approximately Rs. 540 if he sails from Bombay, Rs. 535 if he sails from Karachi and Rs. 595 if he sails from Calcutta. Substantial additions to these figures will also be necessary if the pilgrim chooses to adopt more comfortable means of locomotion and a higher standard of living. The minimum cost of pilgrimage from Bombay last year was estimated at Rs. 600. The estimate has undergone a decrease this year owing to a reduction in the Saudi tariff. As the estimated minimum cost would prove insufficient, should there be a rise in the value of gold, it is suggested that no pilgrim, not even the hardiest and poorest, should start on the pilgrimage unless he has provided himself with at least Rs. 550. In the case of a pilgrim travelling second class on board the ship and in a motor bus in the Hejaz, the cost is estimated to be about Rs. 1,145 in the case of pilgrims sailing from Bombay, Rs. 1,120 in the case of those sailing from Karachi, and Rs. 1,220 in the case of those sailing from Calcutta. If the pilgrim travels first class on the ship and uses a touring motor car for journeys in the Hejaz, the expenditure would be approximately Rs. 1,690, Rs. 1,665 or Rs. 1,765 according as he sails from Bombay, Karachi or Calcutta.
